## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election without traverse of species of mussel, corn oil, deer, and plant leaf in the reply filed on 10/24/06 is acknowledged.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 12-20, 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear what 40% is a % of-the total repellent composition?

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-14, 17-20, 30-36 are rejected under 35 U.S.C. 102(b) as being anticipated by OH et al 3980773.

See example III-85% shellfish (at least 40% of instant claimed unspecified basis for weight %). Material is placed on plant (tree) leaves, on a UCAR-180 substrate. Binders of clay, cab-o-oil, are also used (column 15, line 16). Compositions can be sprayed onto plants (column 5, lines 34-40; column 9, top).
